REASONS FOR ALLOWANCE

(1)

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose, in a method of fabricating a composite structure by partially embedding a bond enhancement element into a ceramic matrix composite material and applying a ceramic coating to the composite material over that portion of the element not embedded, the steps of: 1) forming an opening into the composite material to receive the bond enhancement element, as claimed in Claim 2; 2) inserting the element when the composite material is in a dry preform stage prior to infiltration with matrix material, as claimed in Claim 6; 3) embedding a bond enhancement element into a compressible material and compressing the material between a tool and the composite material to drive the element partially into the composite material, as claimed in Claim 7; 4) forming a tool comprising fugitive material having particles of bond enhancement material partially embedded and applying force and heat to partially embed the particles into composite material and remove the fugitive material, as claimed in Claim 8; 5) partially embedding particles of bond enhancement material into a mold release material and applying force to partially embed the particles into composite material, as claimed in Claim 9; or 6) forming lower and upper tools and using to drive bond enhancement element partially into composite material, as claimed in Claim 10. The prior art of record does not disclose or suggest fabricating a composite structure by forming ceramic insulation material having bond enhancement member partially embedded and using the insulation material to embed the bond enhancement member into ceramic matrix composite material, as claimed in Claim 20, or forming bond enhancement elements as waves on the surface of a ceramic matrix composite by

inserting solid shapes of fugitive material between layers of the composite and forming a ceramic coating on the surface to mechanically engage the bond enhancement elements, as claimed in Claim 23.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
